Deleting text from the structure panel

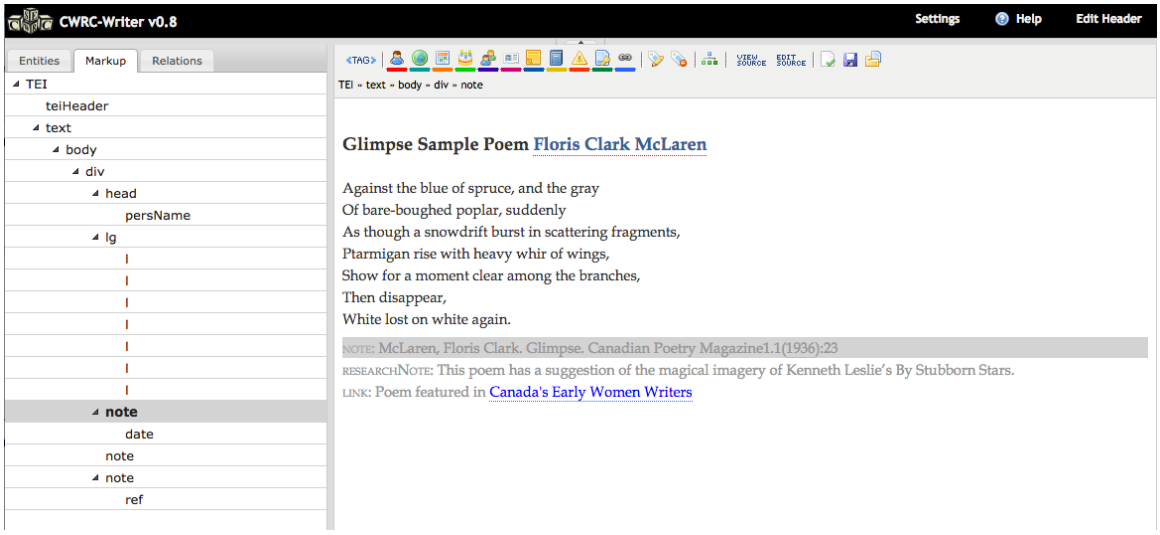
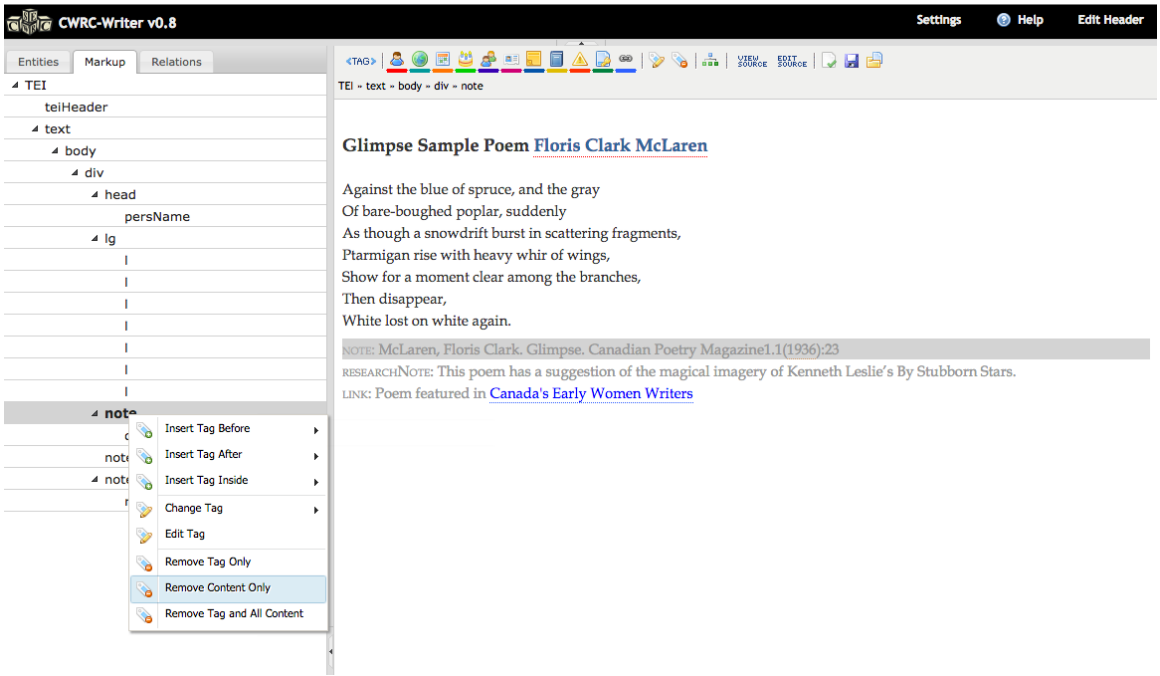
CWRC-Writer templates open with pre-existing text. It may be easier to first delete the text (but not the tags) before adding your own text to the document.

1. Click on the tag that contains the text that you would like to delete.



2. Right-click on the selected tag and choose "Remove Content Only"

   If you would like to delete the tag and the content choose "Remove tag and all content" option from the right-click menu.



This will remove the content from this tag, but it will leave the tag in the document.

Glimpse Sample Poem Floris Clark McLaren
Against the blue of spruce, and the gray
Of bare-boughed poplar, suddenly
As though a snowdrift burst in scattering fragments,
Ptarmigan rise with heavy whir of wings,
Show for a moment clear among the branches,
Then disappear,
White lost on white again.
NOTE:
RESEARCHNOTE: This poem has a suggestion of the magical imagery of Kenneth Leslie's By Stubborn Stars.
